

REMARKS

The specification has been amended to add the subject matter of p. 92, which is missing. The subject matter of p. 92 was present in parent U.S. Application No. 09/888,840, dated September 13, 2002, the disclosure of which was incorporated by reference. (*See specification* at p. 1.) Accordingly, no new matter has been added.

Claims 1-9 have been amended to comply with the restriction requirement issued in parent U.S. Application No. 09/888,840, dated September 13, 2002, where Applicants elect the claims of Group II, *i.e.*, claims "drawn to compounds, compositions, and method of use, where R¹ or R³ is pyridinyl, classified in class 546, subclass various". (*Restriction Requirement* at p. 2.) New claims 10-27 have been added as in parent U.S. Application No. 09/888,840 and to comply with the restriction requirement.

Accordingly, Applicants respectfully submit that no new matter has been added by these amendments. Applicants now await action on the merits.

If there is any fee due in connection with the filing of this Preliminary Amendment, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
